

WHA

# Ain't Gone

I said you ain't gone in my head  
Cause I won't let you go x2

Come on back baby  
I guess I really confused ya  
Tried to leave you baby  
The truth it's painful to loose ya  
Raise my flag  
Because I need you so bad  
Let's start over baby  
Bring your lovin' on back

Got me dreamin', cravin'  
Wantin' in every way

## CHORUS

I thought that you were finally out of my system  
And I could move on on  
How can it be, still inside of me  
I guess your lovin' is that strong

Feelin' empty inside my soul  
Missin' you I suppose  
I tried something new with somebody else

I'm just trying to tell you  
Tried to hate you  
Everything I feel goes away

CHORUS ad lib...

## Stop the race

I see the headlights  
I don't wanna loose control finally  
The lightning strikes me  
It's getting dangerous, you scream

You can stop the race/ I don't wanna be in the corner  
You can stop the race/ shadows are coming down on me  
Stop the race/ everything is burning my soul  
Stop the race/ Can you please

I'm gonna beat me, I don't want to behave you know like a wimp  
Please give me a fill, a reason to be here  
I'm fighting

Chorus

Change your mind, keep your life in your hands

I promess I will be good  
Times are gonna change, yeah the wind is blowing  
I promess I will be good  
Beneath the sunlight, my reign is gonna start  
Are you gonna, are you gonna change?

I'm gonna beat me  
A new day, a new song I wrote I'm gonna sing

Change your mind, keep your life in your hands x2

Chorus x2

# Good guy

Lord, I wanna talk to you  
Why be so cruel  
You might be a fool  
Nobody is ready to die  
Why steal a life like a knife

You in heaven, you didn't earn to leave so soon  
I wanna dedicate this song for you

Yeah I know, you were a good guy  
You did huge work  
To talk about your times  
You didn't mean no hurt  
But world was unkind  
Yeah I know it's beautiful

Every day I miss people like you  
I try to do my best  
Only art is true  
World is so strange  
How can we live with corrupted people everywhere  
We must be engaged

You in heaven, you didn't earn to leave so soon  
I wanna dedicate this song for you

Chorus

I swear it's clever we'll move...

Chorus x2

# Back from the hole

Hole  
I came back from the hole  
With a cloudy sky above  
I came back from the hole  
My old life is gone

Lord you made me an illusion  
I didn't see the rain coming  
Lord you made me a demonstration  
About what I need to do  
Lord remind me later  
What I'm suppose to do  
In the future can you tell me the truth  
In the future can you say be careful

Chorus

Lord you created the foundation  
Where my life is an earthquake  
Lord it was a revelation  
When you took my faith  
Lord remind later  
What I'm suppose to do  
In the future can you tell me the truth  
In the future can you say be careful

Chorus

I came back from the hole  
I forgot my home  
I came back from the hole  
My old life is gone

# Put them in hell

I know different things about the world we live in  
Not so excited, it's just foregone  
I don't wanna be a scaremonger  
But it's reality we have to learn

We have to be delicate  
Each other we must get  
Good things for community as well  
We can do something to put them in hell,  
To put them in hell

You scare your country and do it everywhere  
Don't be a fool if you really care

You're gonna be punished for this game  
We must be saved, world is not dead

Chorus

To put them in hell  
Ouh Ouh  
Yeah I'm gonna fight for our rights  
Oh it must be different now  
These times are gonna change  
Are gonna change

Chorus x2

# Bring me back that love

Oh oh oh oh yeah x2  
Yeah I know you are going back to America  
Our friendship was broken and my mind was underground  
You should call me everyday  
To tell me what you wanna wanna say and I say

Please bring me back that love  
Yeah you know you're Judas  
Please bring me back that love  
Oh please bring me back  
Please bring me back that love  
Bring me back  
Please bring me back that love

It's been two years without news and you look happy  
I think you haven't change your sympathy  
For me and my care  
You don't look behind  
So deep I feel the pain

Chorus  
Oh oh oh oh yeah x2

Remember we used to play together  
In 2003  
Everyday we used to speak about us  
For our future and now I see  
Baby you used to be the best friend I ever had  
Oh oh oh oh yeah

Chorus ad lib

Let me know what you think about the rest  
Don't lie to me I see doubts on your face

Everything you say is...

Be careful I can look for a tiger  
Sharp edged claws, hey I'm not sure

Everything you say is...

Every night I realize and I'm scared  
Baby baby don't lie to me  
Every hour I feel like I'm in jail  
Baby baby in misery

I wonder if you heart doesn't care  
About me and my faith

Everything you say is...

Let me do let me do the talking  
I wonder what's your plan is for me

Everything you say is...

Chorus x2  
(Don't play with you  
Please stop baby)

Everything you say is... x4

Chorus

# Everything you say

# People

The world is in different colors above and beyond  
I see all these people I've got on my mind  
Maybe one day It could be the same town  
I dream I dream about your life

Everyday I know it could be real one day  
But to be true we need soul power and

Love  
Everyday  
Soulpower Love  
Please understand  
Soulpower Love  
Day and night  
Soulpower Love

In 1963, no difference in black or white  
I prefer men who never never fight  
With words it's the better way to change their  
minds  
And to push them to change with the times

Everyday I know it could be real one day  
But to be true we need soul power and love

Chorus

The truth is in every race, everybody's naked  
But I can't I can't do nothing alone  
But together we can help us now

Everyday I know it could be real one day  
But to be true we need soul power and

Chorus

# Know your name

Baby I know your name  
Answer my question, do you know mine ?  
Baby I know your name  
Please please don't go fast

I don't feel the pain  
I feel so bright  
Give it up baby  
And be quiet  
Baby I'll keep you babe my way  
Darling just listen what I say

Chorus

The sun is up  
You bring me coffee  
My bed is wet  
But don't worry  
This pleasure has no price for me  
Everything is our secret baby  
« Did you love my bedroom ?  
Yes I did »

Chorus

Just give me what you got, what you want  
I don't need for some, someone for love

Everytime everynight I give you  
My body, my all lonely love  
Baby keep me in your arms  
I need some love affection

We are the same boys and girls  
It's not for me the only drug  
To get pleasure in your house  
To get pleasure in your mind

Chorus x2

## Baby (Right now)

Baby wanna end the day with you now  
It's been long won't you come lay me down  
Baby wanna spend the night with you now  
Want you near baby here baby right now

Baby wanna end the day with you now  
Finally alone waiting for you to turn me on  
Baby wanna spend the night with you now  
Want you near baby here baby right now

Wanna make this last forever  
And this moment is ours to share  
At last we're alone together

I like what you're do to me  
Come closer to me  
CHORUS

Time to turn off our distractions  
The only sound I hear is your voice  
So kiss me hard enjoy the silence  
Can you feel my heart ring  
Can you feel my heart sing

CHORUS

Baby...

## Somebody to love

All my life when I was a little girl  
I never dreamed I could be someone  
But I worked, worked all day  
Long I managed to be the girl I wanna be

I need somebody to love  
And someone to be here  
I think about the music and begin to see  
I want somebody to help me and love me truly  
Everything you bring me is not real

It was so so long ago  
I thought about play and go  
But I waited and I began to see  
I wanted to do what I do

Chorus

Today I am what I am  
And I'm so proud of me  
Doubts are gone away from me  
I know everything is so clear  
I begin to see  
Listen baby I think I chose the right way

Chorus

I need somebody to love  
I think about the music  
I want somebody to help me oh  
Everything you bring me is not real  
Everything you bring me is not real

All my life when I was a little girl  
I never dreamed I could be someone

## Thanks to

Jerry Barnes for believing in us !  
Philippe Devin for everything he gave  
me in my life, all my family, especially  
my parents and my bro !  
All my band and my friends who have  
supported me since the beginning !  
Avatar Studio and Yellow Sub's crew.  
Thanks to all the artists and awesome  
musicians I met who brought me so much !!!  
Thank you Jean Hervé, Yohann, Maggie,  
Sarah and Simon !
